

CIRCLE OF LIFE

Table Place Chairs

An Award-Winning Innovation for Workspace and Hospitality Enviroments

WHEN IS A CIRCLE, NOT JUST A CIRCLE?

When it's the Circle of Life.

**This free-standing, modular structure provides
the ultimate agile zoning solution.**

Initially designed for a workspace customer who wanted to create private areas within an open-plan space without attaching anything to the walls or ceiling, our Circle of Life system has been developed to create defined zones in just about any size, shape or series of shapes. It may even be used to generate standalone walls.

Designed to be dismantled and re-erected as required, this concept epitomises the circular economy. Furthermore, every component may be recycled at the end of life.

Instead of solid material, curtains ensure an airy space and aid the poor acoustics often encountered in areas finished primarily with hard surfaces.

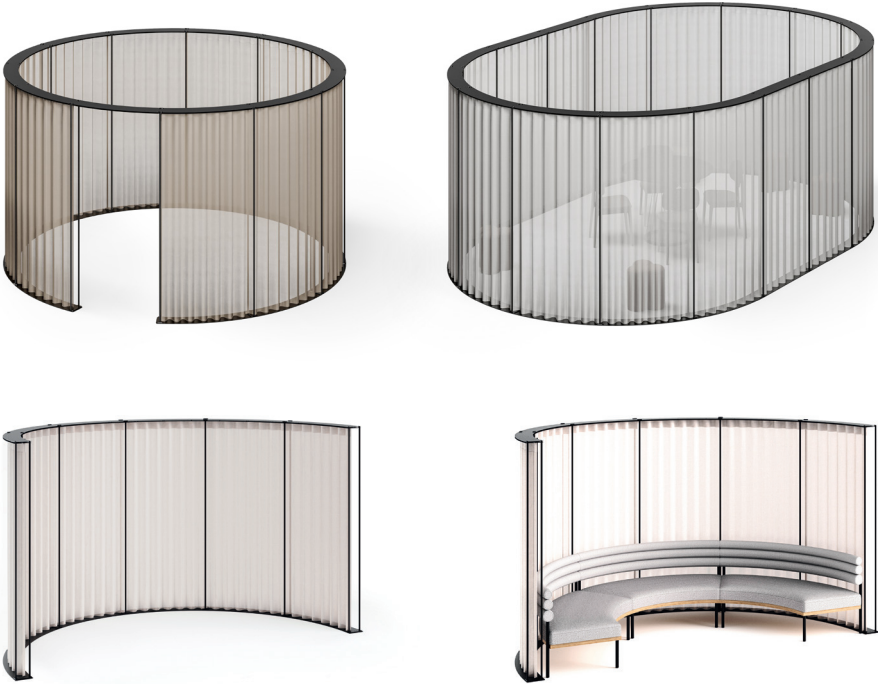

Beyond the workplace, our Circle of Life is now attracting considerable interest in public spaces and hospitality environments, where its flexibility is perfect for creating private dining experiences.

Create your space within a space in just six weeks.

A 3.6m diameter circle, a 5.4m long stadium, and 3.6m wide semi-circular room divider created with Circle of Life modules are shown here. The semi-circle is stable enough to stand alone or can be fitted with our Waive sofa inside or outside the curve. Build your ideas to stand alone, off walls or each other, with a lead time of just six weeks.

A NEAT STEEL BASE PLATE HOLDS THE UPRIGHTS FIRMLY IN PLACE.

OUR CURTAINS RUN SMOOTHLY, WHATEVER YOUR DESIRED SHAPE.

CLEVER FIXINGS ENSURE THE TRACK RUNS PERFECTLY AFTER EVERY RE-ASSEMBLY.

Table Place Chairs

"Brilliant alternative to the abundant glass meeting room.... this product will fit seamlessly in the next generation of the office space."

Construct your own shape with Circle of Life.

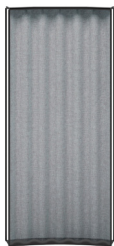

Just three 2m high black powder coated steel frames - a straight, a 30° curve, and a gentle right angle - enable you to create a quite extraordinary variety of bespoke spaces. The curves may be used both convexly and concavely, and the only 'rule' is that any shape must incorporate an even number of modules.

We have shown some ideas, but if you have any doubts about your own vision, simply give us a call on 0330 1222 117.

Potential configurations

Take a seat

The Waive modular sofa has been designed specifically for use with our Circle of Life system. Available in straight, internal and external curved sections, it strikes a sharply contemporary note with its sleek black, powder-coated steel frame and tubular cushion back.

Finish in any of our standard fabrics for delivery in 6-8 weeks or specify your own fabrics (this may affect delivery).

Add shelves

Oak veneered and recycled wood terrazzo shelving is available to fit inside Circle of Life curved modules.

Curtain options

Circle of Life curtain fabrics come in several weights, including acoustic for those requiring more privacy, in both standard and recycled yarns: all are recyclable at the end of life. A wide variety of colours from subtle to brights are available in every weight.
