

Pipeline Table Base

Table Place Chairs

Pipeline Coffee Base

Dimensions (mm):

Pipeline Dining Base

Dimensions (mm):

Pipeline Bar Base

Dimensions (mm):

This exciting table base is as solid and well-engineered as it is stylish. Formed in steel, with hidden adjusters to counteract uneven flooring, Pipeline comes in coffee, dining and bar table sizes, can be specified in any standard RAL and is fully recyclable. Both the slimline and large table bases are finished with a base plate for added stability (please check our recommended maximum table top size before ordering).

LEAD TIME FOR THE PIPELINE STANDARD AND LARGE TABLE BASES IS 4 - 6 WEEKS.

The Pipeline may be used with any of our table tops. Overleaf it is shown with marble, opposite are Minerastone, a reinforced ceramic slim yet strong structure with astonishing wear-, temperature- and chemical-resistant properties made entirely from recyclable raw materials.

Table Place Chairs

Mozart Armchair

Table Place Chairs

Mozart Armchair

Dimensions (mm):

Height: 720

Width: 960

Depth: 850

Seat Height: 400

Mozart 2-Seater Sofa

Dimensions (mm):

Height: 720

Width: 2100

Depth: 850

Seat Height: 420

Mozart is our sumptuous version of a tub chair. Curvaceous, almost sensuous, it is a little wider, a little deeper, and entirely more voluptuous than your average tub chair. To put it simply, Mozart is a hug in a chair. Sometimes only a tub chair will do. For those times, we bring you Mozart.

Mozart's big sister, the two-seater sofa, is equally curvilinear, and this organic form is currently very on-trend. Both chair and sofa can be specified upholstered in any of well over 400 of our Crib 5-compliant fabrics or in any suitable fabric of your choosing.

LEAD TIME FOR BOTH THE MOZART ARMCHAIR AND SOFA IS 6 - 8 WEEKS.

Depth: 490

Seat Height: 475

*The Kite design is also available
as a lounge chair.*

“I genuinely believe this is the
most comfortable side chair
I have sat on.”

Grant Clarke

Senior Project Director

An original Table Place Chairs design, Kite draws inspiration from the 1950s, probably the most stylish era in contemporary chair design. But looks aside, its greatest asset is ergonomic: many claim it to be the most comfortable side chair ever. Kite enjoys a dished seat, a curved back that hugs you with support, and a perfectly angled frame that is a testament to many hours in design.

The Kite’s steel frame may be powder-coated in any standard RAL. But if you want to celebrate its industrial qualities, consider finishing with a clear lacquer to allow the unique patina of welded steel to shine. Seats and backs may be specified in beech plywood in a choice of 8 stains or upholstered in fabrics of your choice.

LEAD TIME FOR THE KITE SIDE CHAIR WITH BEECH WOOD SEAT IS 4 - 6 WEEKS; UPHOLSTERED CHAIRS MAY TAKE A LITTLE LONGER.

A Kite side chair is also available.

“From the multitude of style-led lounge chairs up for consideration, the Kite refused to back down from being the most comfortable, small footprint big chair available”

Nick Boland

Head of Business Operations,
Omenport Developments

With its distinctive blade back, this original Table Place Chairs design is reminiscent of a 1950's classic.

The Kite a lounge chair with purpose, making it ideal for breakout spaces, reception areas and huddle rooms. Its steel frame, perfectly angled for optimum comfort, may be powder-coated in any standard RAL or finished with a clear lacquer, allowing the natural patina of the welds to emphasise its industrial roots. Upholster it in any of our hundreds of Crib 5-compliant fabrics or stipulate your own: the bolster shape works particularly well in leather or in a fabric with texture.

KITE LOUNGE IS SHOWN HERE WITH PLECTRUM, A DISTINCTIVE, STEEL-FRAMED COFFEE TABLE (AVAILABLE IN ANY STANDARD RAL) WITH AN OAK VENEERED TOP. LEAD TIME 3 -4 WEEKS.

LEAD TIME FOR THE KITE LOUNGE CHAIR IS 6 - 8 WEEKS.
